Subject Index to Volume 36

Brief Communications, Letters, and Errata are denoted by the letters C, L, and E, respectively.

Bibliometry, 314, 389
British Library, research and development, 275

Citation analysis, 223
Clustering algorithms, 3
Co-citation graphs, 38
Computers, as child-selected activity, 339
—, in Latin America, 259
—, personal, 309

Database management systems, 330
Data distortion methods, 322
Decision making, information use in, 63
Dillon Hypothesis of Titular Colonicity, 251

Electronic journals, 309
Electronic publishing, 230
Ethics of knowing, 211

Federal information policy, 220, 352(L)

Indexing, five-axiom theory, 116
Index terms, distribution, 283
Informatics, 259
Information access, 383
Information activity, and socioeconomic conditions, 213
Information and productivity, 369
Information retrieval, 15, 200, 342
Information retrieval, and fuzzy sets, 398
Information retrieval, relevance, 354(L)
Information science education, in developing countries, 192
Information science research, 268(C)
Information, social measures, 169
Information systems, international cooperation, 153
Information technology, third world, 178
Information transfer, 146
International information policy, 164

Journal networks, 28
—, psychology, 411

Library, changing role, 44
Library services, and the elderly, 364
Literature access, in less developed countries, 184

Mapping, 352(L)

National Commission on Libraries and Information Science, 360
National information policy, 164
National information system, 53(C)
National Library of Medicine CATLINE database, 82
Networks, analysis, 28

Online searchers, 241

Patents, 297
Perceived accessibility to information, 302
Person-to-person communication, information-seeking behavior, 103
Perspectives on international information issues, 143
Perspectives on the National Commission on Libraries and Information Science, 357

Random Graph Hypothesis, 38

SCAN system, 53(C)
Subject subfields, research method used, 130

Technology transfer, 94
